About me

I am a curious 19 year old Computer Science student. I have been always fascinated with technology and how it allows you to create new things from scratch. I am an enthusiast of open source projects and I try to contribute as much as possible publishing projects and libraries.

Education

University

2013 –   Computer Science. Universidad Carlos III de Madrid, Madrid. (Bilingual)

Experience

Internships

Summer 2014   **Android Developer Intern, Fever, Madrid.**
At Fever, I was in charge of helping to build a great app with more than 2 million downloads fixing bugs, doing tests and implementing some new features.

Apps

Jan 2015   **T3chFest**
T3chFest is an event celebrated every year in the Universidad Carlos III de Madrid. I was in charge of build the app of the event with information about the talks, the location…

Summer 2013   **Series.ly Beta**
Android app which I developed using the API of Series.ly, a website that helps you track the series, movies and documentaries you see. It got more than 115.000 downloads on Play Store.

Summer 2012   **Androtalk / Androjuegos**
Android apps for the blogs Androtalk.es and Androjuegos.com, with 5.000 downloads each and an average rate of 4.3

Blogger

Nov 2011–Now   **Collaborator in Androtalk and Androjuegos**
Blogs dedicated to news and reviews related to Android: devices, apps and games.

Mar–Sep 2012   **Collaborator in Omicrono**
Blog about science and technology.

Technical Skills

Programming

Languages   Basic Level   C, Assembly (MIPS), Python
Medium Level   Java

Operating Systems

Mac OS X, Windows, Linux

Languages

Spanish

Mother language

English

Medium

Hackathons

2013   Runner-up at Betabeers´ crowdfunding hackathon
Jan 2015   Winner at HackathonLovers´ culture and payments hackathon

Open Source Projects

I love open source because I have learnt a lot reading other's code. Because of this, I try to contribute as much as possible uploading my projects.

Interests

Sports, music, science, technology, movies.
